

MY LIFE SERVICES

DRIVER ACCIDENT PROTOCOL

PURPOSE

To establish clear procedures for staff to follow when a vehicle accident occurs while transporting My Life Services participants. The safety and well-being of participants and staff is the highest priority.

1 Stop and Secure the Vehicle

- Stop the vehicle immediately and activate the hazard lights.
- If it is safe to do so, move the vehicle to a secure location.
- Remain at the scene of the accident.
- Do not leave the scene unless remaining there creates an immediate safety risk.

2 Check Participants and Staff

- Immediately check all participants and staff for injuries.
- Call **911** if there are injuries, an emergency, or an immediate safety concern.
- Provide first aid only within the limits of your training.
- Do not move an injured person unless necessary to prevent further injury.
- Maintain supervision of all participants at all times.

3 Contact Law Enforcement

- **Attempt to contact local law enforcement for every accident, regardless of how minor the accident or damage appears.**
- Call **911** for emergencies or injuries.
- For minor accidents with no apparent injuries, contact the appropriate non-emergency law-enforcement number.
- Follow all instructions provided by law enforcement.
- Obtain the officer's name and report/case number when available.

4 Notify Management

The driver must notify the **My Life Services Supervisor or Manager as soon as it is safe to do so.**

Provide the following information:

- Location of the accident
- Number of participants and staff involved
- Any injuries, pain, or complaints
- Whether emergency services or law enforcement were contacted
- Condition of the vehicle
- Brief description of the accident

5 Exchange Information

When another vehicle is involved, obtain:

- Driver's full name
- Driver's license information
- Insurance information
- Vehicle make and model
- License plate number
- Contact information
- Names and contact information of witnesses, when available

Staff must not admit fault, accept responsibility, or argue with another driver regarding the accident.

Staff should limit discussion to exchanging necessary information and cooperating with law enforcement, emergency personnel, and My Life Services management.

6 Document the Accident

When it is safe to do so:

- Take photographs of all vehicles and visible damage.
- Photograph the roadway, traffic signs, and surrounding area.
- Record the date, time, and exact location.
- Document the names of participants and staff involved.
- Record witness names and contact information when available.
- Preserve available video or other evidence.
- Obtain and retain the police report or case number when available.

Documentation should be completed as soon as reasonably possible while the details of the incident are fresh.

7 Participant Transportation

- Participants must remain supervised at all times.
- Participants must remain with authorized staff until they can be safely transported or released according to program procedures.
- Do not continue transporting participants in a vehicle that may be unsafe.
- Contact management for instructions regarding alternate transportation.
- Any replacement vehicle or driver used to transport participants must be approved by My Life Services.
- Staff must continue to follow each participant's applicable supervision and safety requirements while waiting for alternate transportation.

8 Medical Follow-Up

- Any participant or staff member reporting pain, injury, discomfort, dizziness, or other symptoms must be reported to management.
- Obtain emergency medical assistance when necessary.
- Do not attempt to determine that a participant is medically "okay" when the participant is reporting symptoms or there is reason to believe an injury may have occurred.

- Document all reported injuries, symptoms, complaints, and medical evaluations.
- Notify the participant's appropriate authorized contact according to program procedures.
- Continue to monitor participants for signs or complaints of injury following the accident.

9 Management Follow-Up and Special Incident Report (SIR)

Management will review the accident and all supporting documentation.

Management responsibilities include:

- Determine and complete all required immediate notifications.
- Notify the Regional Center and other required parties in accordance with applicable reporting requirements.
- **Complete and submit a Special Incident Report (SIR) within the applicable reporting timeframe when an SIR is required.**
- Complete required internal incident documentation.
- Notify the appropriate insurance carrier or representative, as applicable.
- Maintain accident documentation, photographs, witness information, law-enforcement information, and related records.
- Arrange for inspection of the vehicle when necessary.
- Ensure that a vehicle involved in an accident is not returned to participant transportation until it is determined to be safe.
- Review whether additional staff training, corrective action, vehicle-safety measures, or other follow-up is necessary.
- Document management's follow-up and resolution of the incident.

10 Staff Responsibilities

All staff who drive or transport My Life Services participants are responsible for knowing and following this protocol.

All vehicle accidents must be immediately reported to management, including minor collisions, parking-lot incidents, backing incidents, contact with another vehicle or object, and accidents involving little or no visible damage.

Staff must not:

- Leave the accident scene when legally required to remain.
- Leave participants without appropriate supervision.
- Admit fault or accept responsibility for the accident on behalf of themselves or My Life Services.
- Argue with another driver, passenger, or witness.
- Post photographs, participant information, or other information concerning the accident on social media.
- Transport participants in a vehicle that is or may be unsafe.
- Delay reporting the accident to management.
- Conceal or fail to report a minor accident because there appears to be no damage or injury.

DRIVER'S IMMEDIATE ACCIDENT CHECKLIST

In the event of an accident:

- 1 **STOP** – Secure the vehicle and scene.
- 2 **CHECK** – Check participants and staff for injuries.
- 3 **CALL** – Call 911 when there is an injury, emergency, or immediate safety concern.
- 4 **POLICE** – Attempt to contact law enforcement for every accident.
- 5 **NOTIFY** – Contact your My Life Services Supervisor or Manager as soon as safely possible.
- 6 **SUPERVISE** – Maintain participant supervision at all times.
- 7 **EXCHANGE** – Obtain the other driver's license, insurance, vehicle, and contact information.
- 8 **DOCUMENT** – Take photographs and obtain witness and police information when possible.
- 9 **DO NOT ADMIT FAULT** – Do not argue or discuss responsibility.
- 10 **WAIT FOR DIRECTION** – Do not continue transporting participants in an unsafe vehicle.

When in doubt, protect the participant, contact emergency services when necessary, and immediately contact My Life Services management.

ACKNOWLEDGMENT

I have read and understand the My Life Services Driver Accident Protocol. I agree to follow this protocol whenever I drive or transport My Life Services participants.
